

# *Policies for Boosting Coordinating Regional Primary Sector Innovation*

# CoRIN

The CoRIN project specifically focus on the Primary Sector and on how proper policies definition on this area can contribute to stimulate research investments at regional level.

## Partners

- 1 Euris S.r.l. (Euris) – Italy
- 2 Regione Friuli Venezia Giulia (FVG) – Italy
- 3 Regione del Veneto (RV) – Italy
- 4 Regione Emilia-Romagna (RER) – Italy
- 5 National Agency of Fisheries and Aquaculture (NAFA) – Bulgaria
- 6 Istrian Development Agency Ltd (IDA) – Croatia
- 7 Regional Development Agency Porin Ltd (Porin) – Croatia
- 8 University Incubator of Primorska Ltd (UIP) – Slovenia
- 9 Macedonia Research Center (MARC) – Greece

The final objective of the CoRIN project is to improve Regional Primary Sector policies definition and governance processes, for increasing effectiveness of interventions and impact on RTD investments, through benchmarking, knowledge sharing and improved co-ordination among Regions. To achieve these results it will be necessary:

## Project objectives

- 1 To increase knowledge about how non-RTD policies, in particular related to the Primary Sector, impact on research investments and innovation diffusion;
- 2 To improve the dialogue between policy-makers and public and private RTD actors in the concerned area, for a better co-ordination and complementarity of actions;
- 3 To identify implementation strategies and practical indications, of use to policy-makers at regional level, for an effective inclusion of the “research promotion” dimension in the development of Primary Sector Policies;
- 4 To define specific procedures and modalities for effective trans-regional knowledge exchange and trans-regional collaboration in policy making and governance processes;
- 5 To provide involved Regions with proper tools for an effective co-ordination of actions.
